Status

- production
 - 200 pieces for project partners now
- can I have them?
 - no DIY (you will need to have them made)
 - design documents on the Web
 - <http://www.tik.ethz.ch/~beutel/>
 - ~ 200: 120€ pp for core board
 - Bluetooth (50 €), microcontroller (12 €)
 - PCB placement (high initial cost)

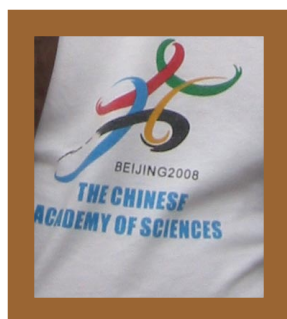

BEIJING2008

**THE CHINESE
ACADEMY OF SCIENCES**

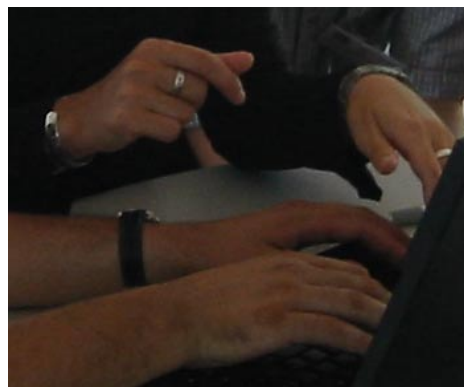

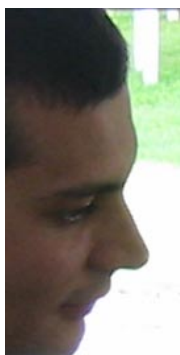

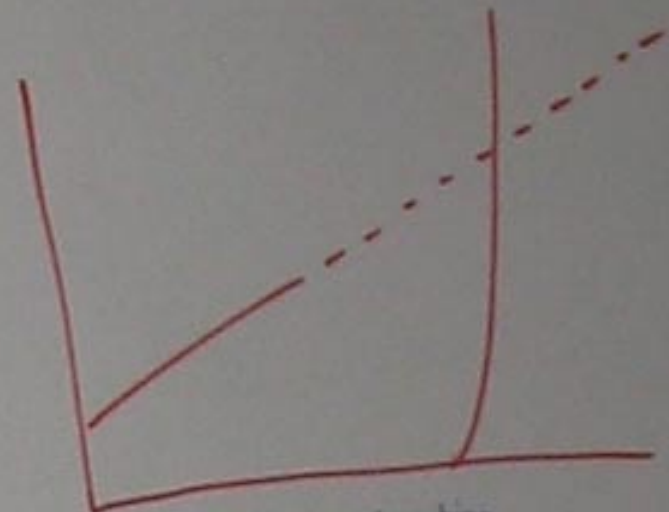

Why predictions are wrong?

- extrapolation

- saturation
- paradigm shift

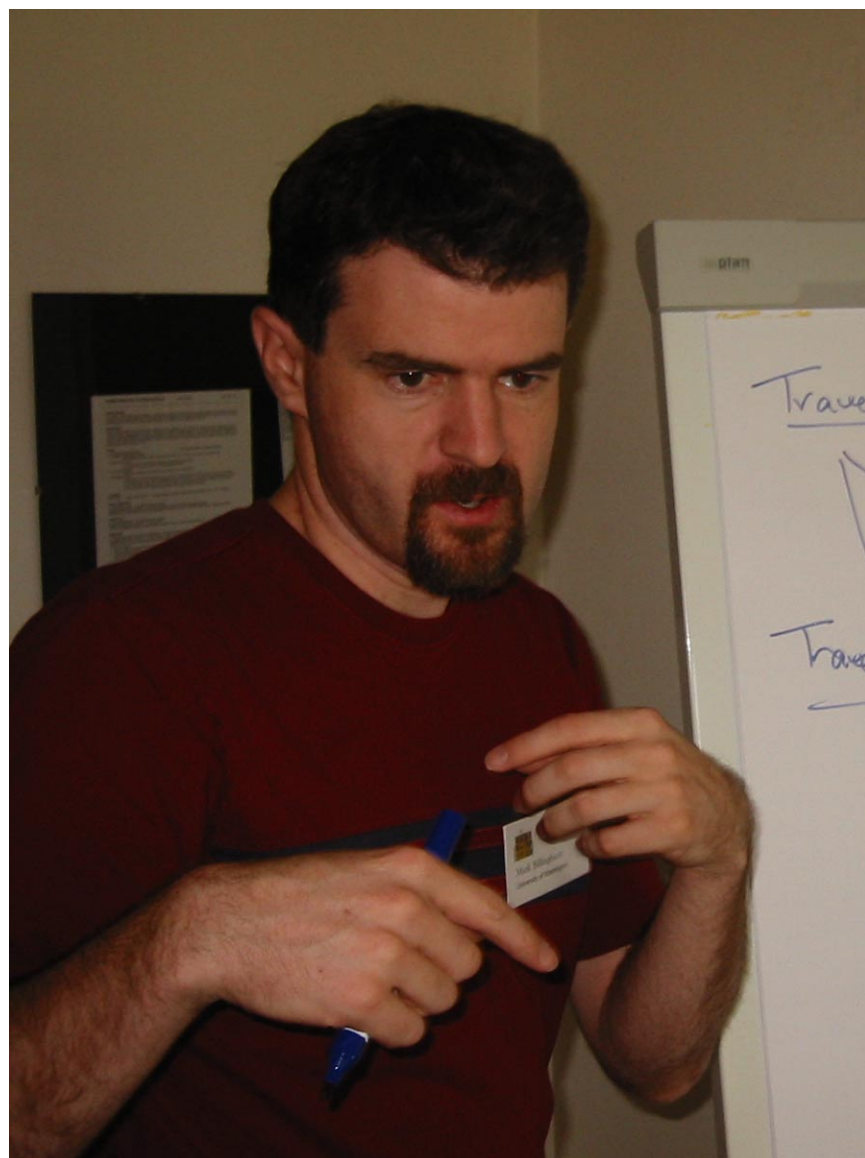

μfilm ; ladies ; plastic kitchen

; connection saturation

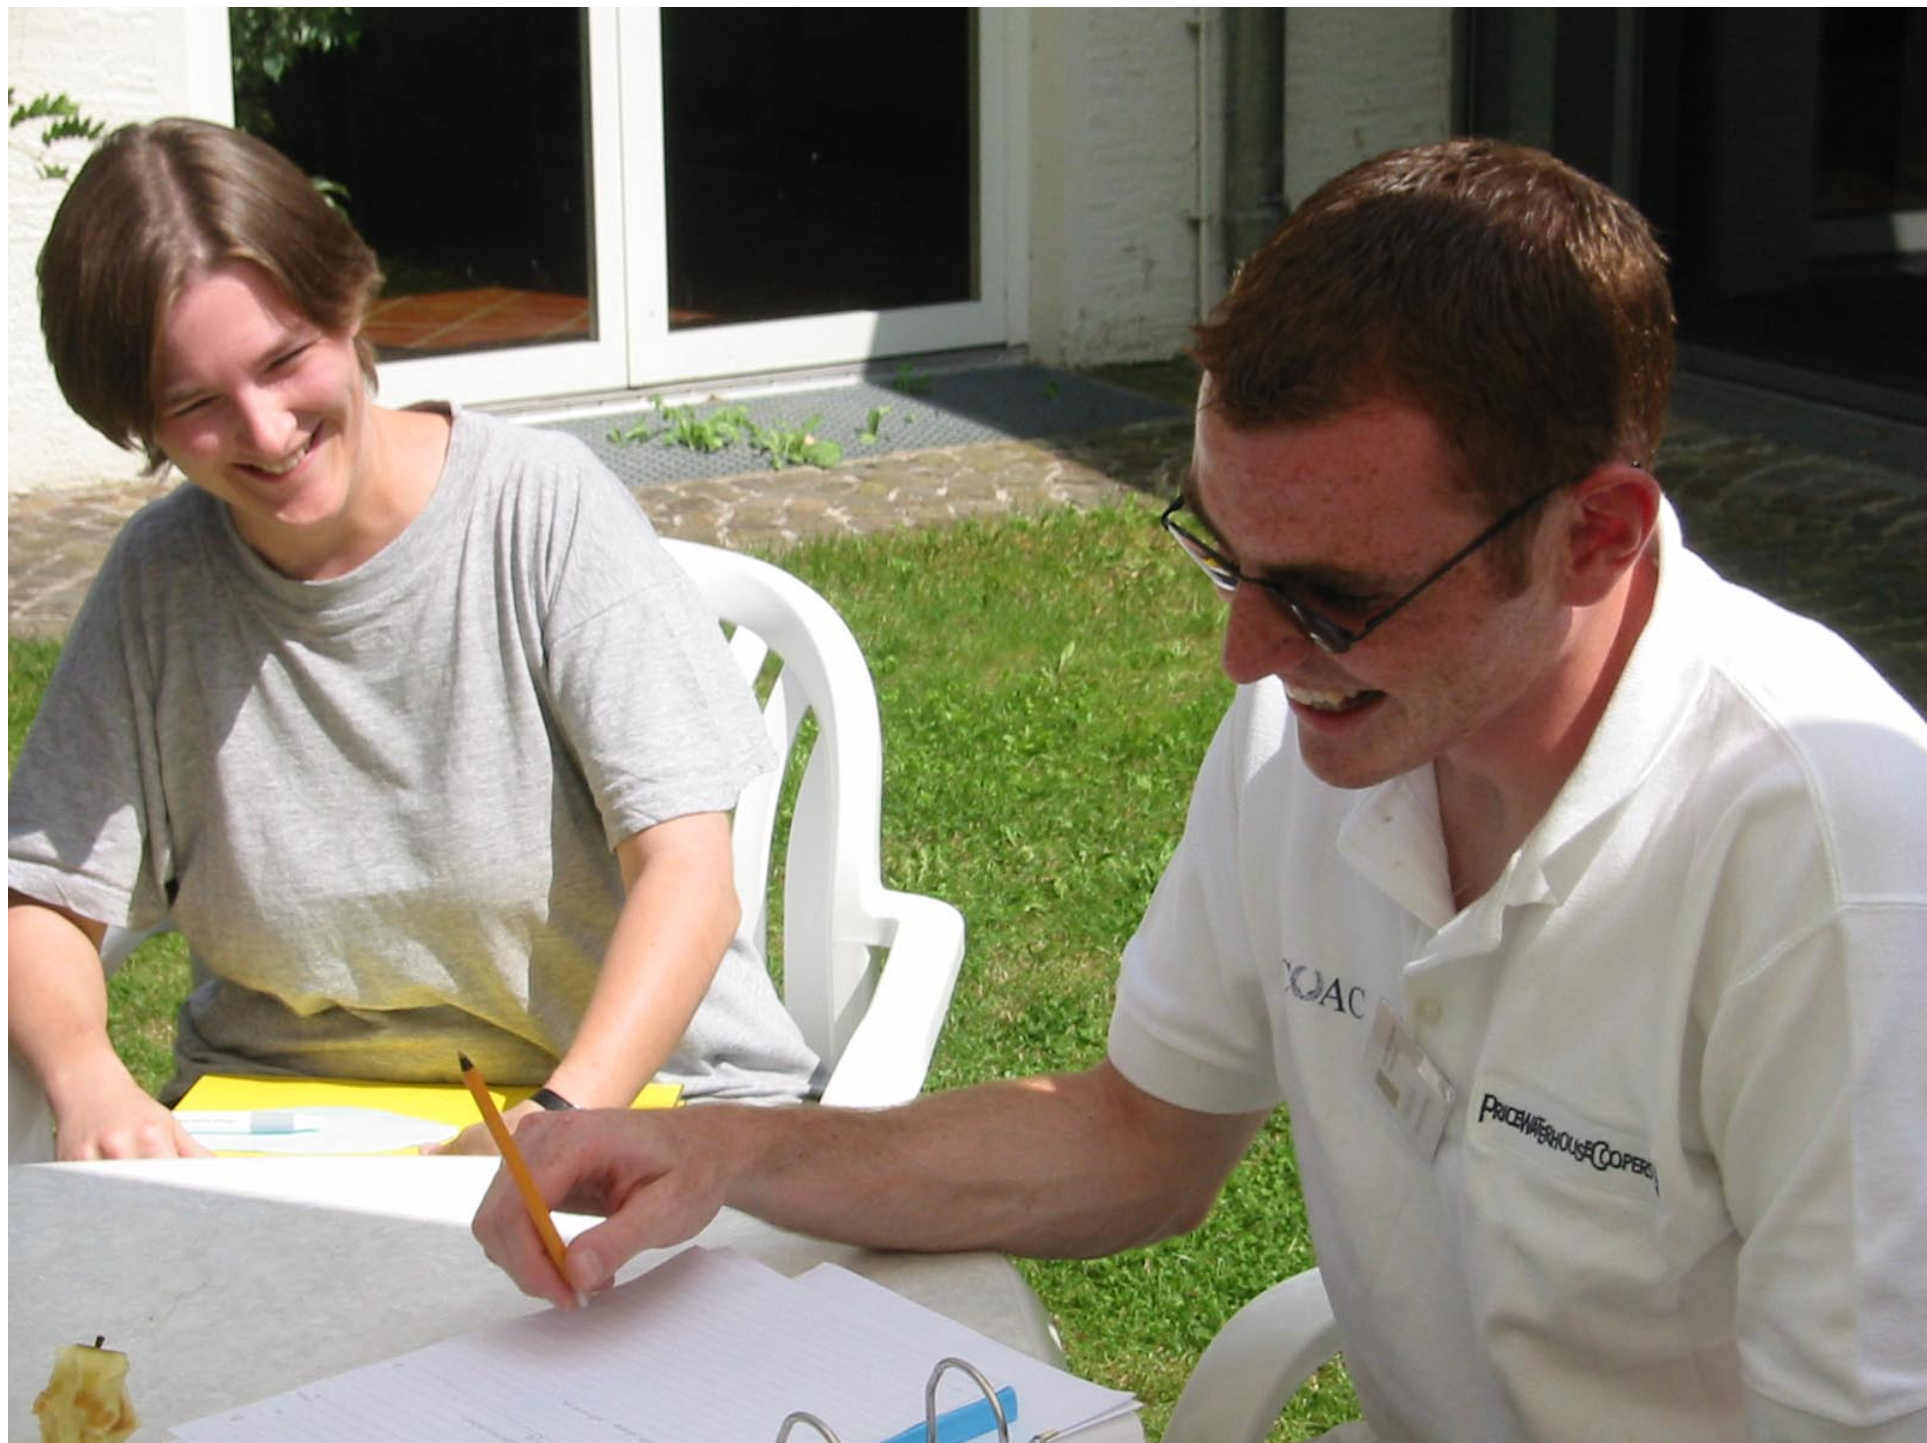

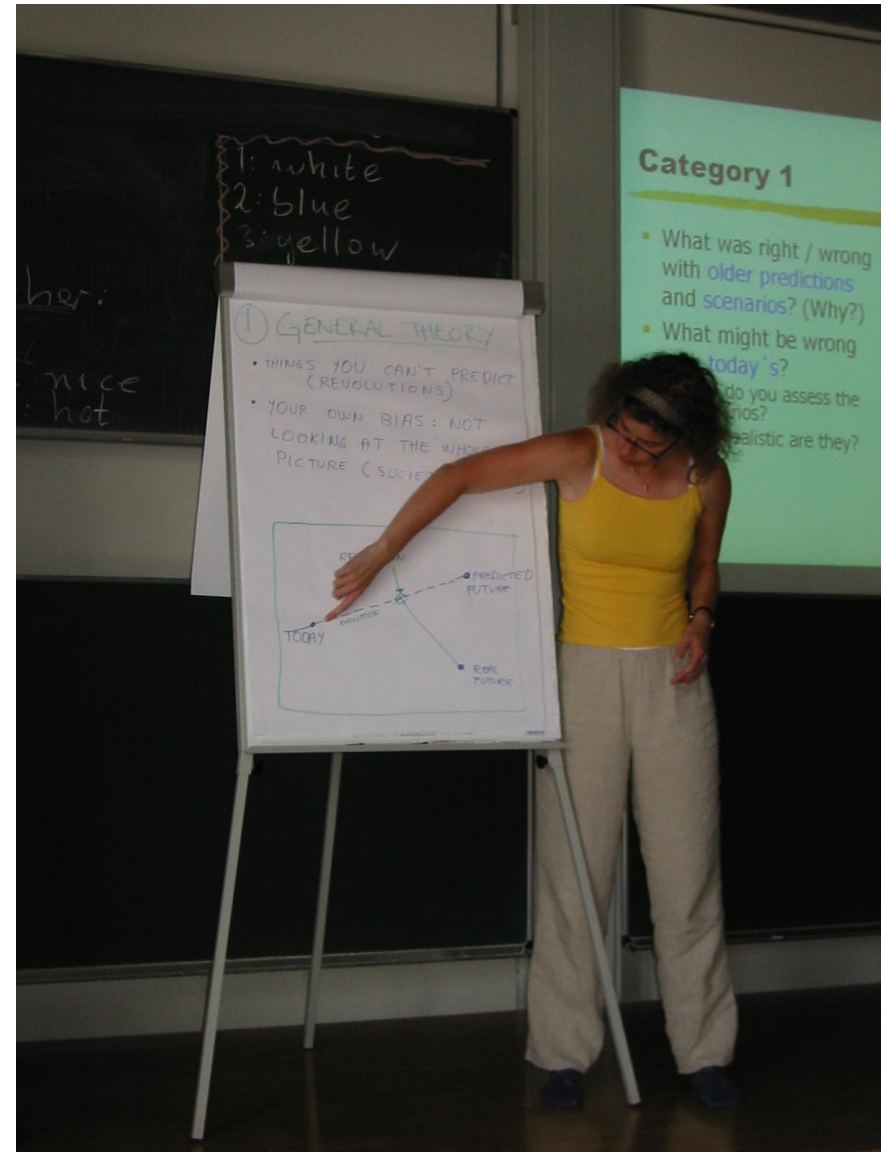

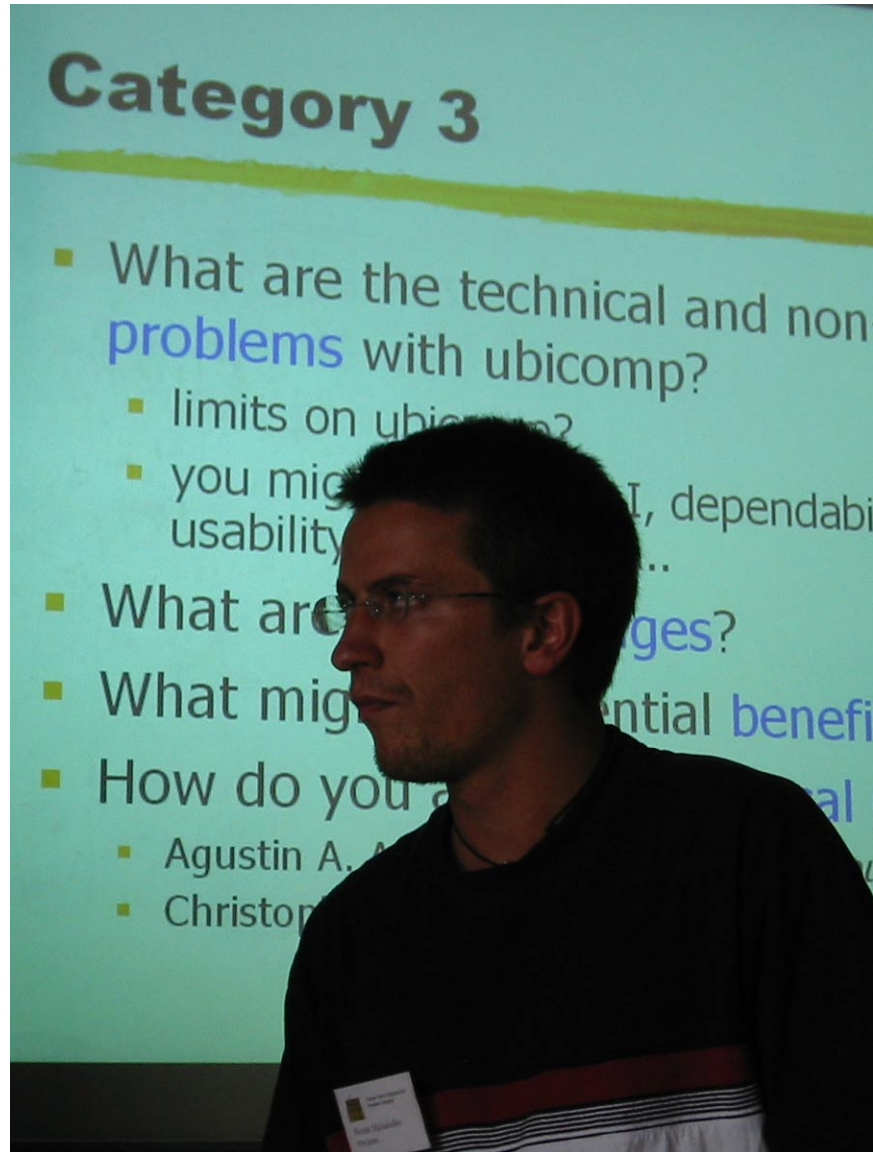

Category 4

- Consequences and scenarios?
- What can we learn?
 - what might be so important?
 - what will affect everyone?
- Other consequences
 - e.g., political, Ubicon, public, teaching
- What about?
 - short
